---

**Step 2: Align expectations**

After you have seen the film, you can now compare what you have learned. You can also find out which of your expectations were not met in the movie and if there are things you need to add from other sources. Write down some of the things you noticed.

---

**Step 3: Line up “Fours“ for the content of the film.**

The video answers several questions. Can you solve the respective mini-riddles so that rows of 4 are formed? At the end, you should have the most important statements of the film in these rows in front of you like bullet points for a lecture.
